Location: Erode, Tamil Nadu, India

PROFESSIONAL SUMMARY

Full Stack Developer and AWS Certified Solutions Architect with expertise in designing, developing, and deploying scalable web applications and cloud-based solutions. Proficient in Java, React, Node.js, AWS, Docker, and Kubernetes. Skilled in building CI/CD pipelines, optimizing cloud infrastructure, and delivering user-focused applications. Demonstrated leadership in team projects and a proven track record of improving system performance and scalability. Committed to driving business success through innovative software development and cloud architecture.

TECHNICAL SKILLS

- Cloud Technologies:** AWS (EC2, S3, RDS, IAM, Lambda), Terraform, Kubernetes, Jenkins, AWS CLI
- Programming Languages:** Java, JavaScript, Node.js, HTML, CSS, Python
- Frameworks & Libraries:** Spring Boot, React, Redux, JWT, Express.js
- Databases:** MySQL, PostgreSQL, MongoDB
- Tools & Technologies:** Docker, Git, VS Code, Eclipse, Figma, Adobe XD, Photoshop, Illustrator
- Other:** DevOps, CI/CD Pipelines, UI/UX Design, API Development, Agile Methodologies

EDUCATION

- Bachelor of Technology - Information Technology**
Sri Krishna College of Engineering and Technology, Coimbatore, CGPA: 7.3 (September 2022 – April 2025)
- Diploma in Computer Engineering**
Sakthi Polytechnic College, Erode, Percentage: 93% (June 2019 - June 2022)

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (Score: 977/1000) – AWS
- AWS Certified Cloud Practitioner (Score: 967/1000) - AWS
- Google UX Design Professional Certificate – Coursera, Google

PROFESSIONAL EXPERIENCE

- Web Development Intern – Prodigy InfoTech (May 2024 – June 2024)**
Completed a 1-month internship with outstanding remarks, working on react based front-end and java spring boot based back-end technologies to develop web applications.
- AWS Cloud Virtual Intern (March 2022 – May 2022)**
Completed a 10-week AWS Cloud Virtual Internship through AWS Academy, where I gained hands-on experience in cloud computing, including cloud infrastructure, deployment models, and security best practices. Learning key concepts such as EC2, S3, and IAM, while building a strong foundation for cloud-based solutions.

PROJECTS

Home Appliance Service Centre – Java (Spring Boot), React, MySQL, AWS

- Developed a full-stack service management system with Spring Boot RESTful APIs for optimized request handling and technician scheduling workflows.
- Implemented a responsive frontend using React, enhancing UI/UX and supporting efficient client-side rendering.
- Integrated MySQL for relational data persistence with optimized schema design and query performance tuning.
- Deployed application infrastructure on AWS EC2 and RDS, ensuring high availability (99.9% uptime), scalability, and secure access through IAM roles and security groups.

Agriculture Loan Portal – Java (Spring Boot), React, PostgreSQL, JWT, Redux, AWS

- Developed a secure, full-stack platform to automate and streamline agricultural loan applications and approval workflows.
- Engineered RESTful APIs using Spring Boot with JWT-based authentication for secure session management and access control.
- Designed a responsive React frontend with Redux for robust state management and improved user experience.
- Integrated PostgreSQL for efficient relational data handling and optimized query performance.
- Deployed on AWS with auto-scaling enabled, optimizing resource utilization and reducing infrastructure costs by 10%.

Portfolio Website – React, Docker

- Designed a personal portfolio website using React to showcase projects, technical skills, and certifications through a clean, responsive user interface.
- Implemented mobile-first design principles and cross-browser compatibility to optimize user experience across devices.
- Containerized the application using Docker for consistent local development and streamlined deployment.

ACHIEVEMENTS

- Achieved an exceptional score of **977/1000** in the AWS Certified Solutions Architect (SAA-C03) – Associate exam, demonstrating advanced proficiency in designing and deploying scalable, fault-tolerant systems on AWS.
- Achieved an outstanding score of **967/1000** in the AWS Certified Cloud Practitioner (CLF-C02) exam, showcasing deep expertise in cloud fundamentals and AWS services.
- Led a team of 3 in developing a full-stack project, completing it 3 weeks ahead of schedule.

PASSIONS & INTERESTS

- Passionate problem-solver with a logical and analytical mindset, focused on clean, maintainable code
- Enthusiastic about cloud architecture and DevOps automation using AWS, Kubernetes, and Terraform
- Dedicated to building full-stack applications that address real-world challenges and deliver value
- Eager to attend tech events like AWS Summit and re:Invent to stay updated and connect with industry experts
- Committed to intuitive UI/UX design, emphasizing user-centric front-end development
- Quick to adapt and always learning new technologies, tools, and certifications to stay ahead in the tech field
- Strong advocate of continuous learning and professional development in cloud and software engineering.
